Nursery Pests Workshop: Foliar Diseases, Mealybugs and Scales
ANR Kearney Research & Extension Center, Nectarine Room
9240 South Riverbend Avenue, Parlier, CA 93648
June 25, 2009 8:00 am – 12:00 pm

This CORF half-day workshop focuses on foliar fungal diseases of nursery crops and on mealybug and scale pests found on nursery crops. Topics covered include the identification and biology of key species, damage symptoms found on plants, monitoring techniques and control options involving both cultural and chemical methods. Amanda Crump, UCCE advisor in Fresno County, will present information on foliar diseases including how to distinguish between symptoms of abiotic disorders and those associated with fungal diseases. Karen Robb, senior horticulture specialist for Target Specialty Products, will cover mealybugs and scales including how to distinguish between armored and soft scale species (and why this is important). Continuing Education Units applied for: CDPR 3 hours “other” and CCN Pro.

This program has been generously sponsored by UC Cooperative Extension, the Kee Kitayama Research Foundation, the California Cut Flower Commission, Target Specialty Products, Syngenta, OHP Inc., The Pearlstein Family Foundation, UC Davis Plant Sciences Department and UC Davis College of Agricultural and Environmental Sciences.

(If you would like more information on being a CORF sponsor, please contact the office at 530-752-8419.)

Registration Fees: Prices listed are per person. A confirmation will be emailed or faxed to registrants whose registration is received up to 5 days prior to the seminar. **Late Registration:** Late and at-door registration will be accepted only if space is available and meals cannot be guaranteed.

Refund Policy: Refund requests must be received in writing (fax & email is acceptable).

For more information please contact the CORF office at 530-752-8419 (phone/fax) (email: lldodge@ucdavis.edu)
